

JAWS pdf editor® SDK v3.8

Jaws PDF Editor SDK is an ActiveX control that provides software developers with the ability to include PDF functionality in their applications including on-screen viewing, interaction, annotation, and manipulation. The SDK, which uses the mature

Global Graphics Jaws RIP rendering engine for screen rendering, allows developers to embed self-contained PDF functionality into their applications, without requiring any third party products.

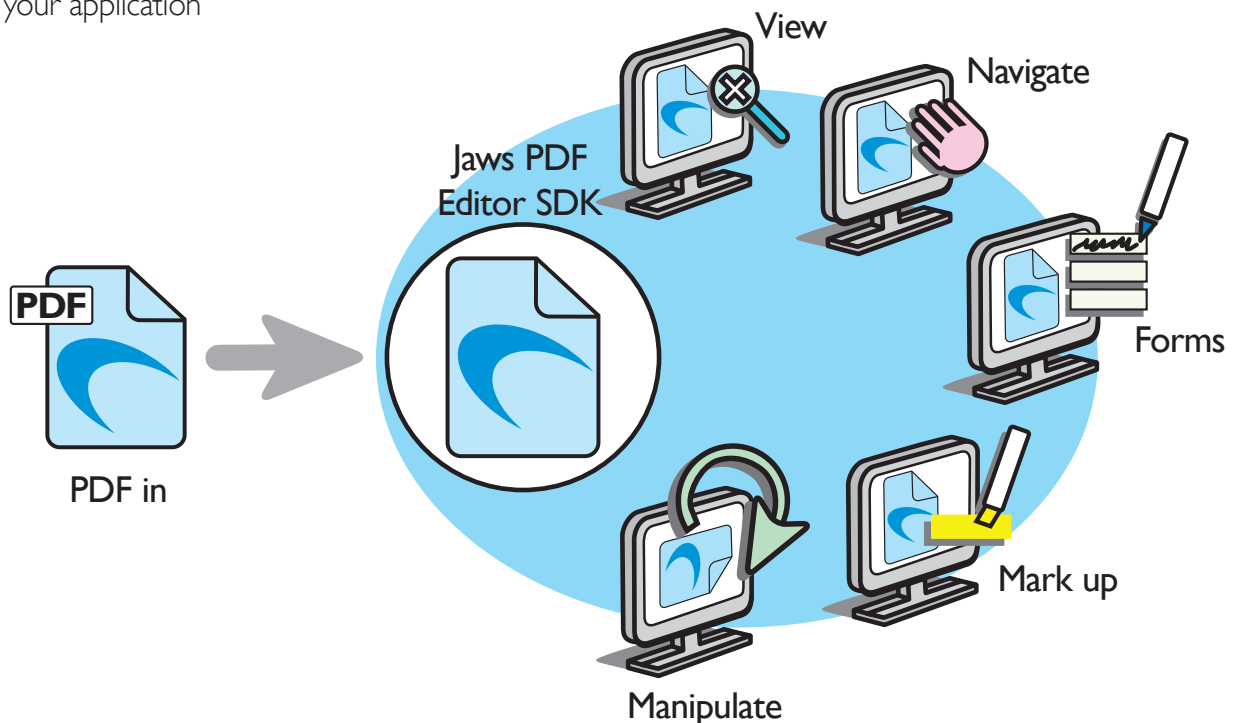

Key Benefits

- Supports PDF viewing, annotation, manipulation, forms and navigation
- Allows creation of completely customized PDF viewing applications
- Enables addition of PDF capabilities to larger applications
- Can provide PDF functionality as a control in a web browser
- Built-in localization capability with support for a broad range of languages
- Provides many performance optimization capabilities for user control
- Efficient memory management
- Small development overhead enabling rapid time to market
- Ships with comprehensive documentation, example code and sample applications

Pedigree in PDF

Global Graphics Software has been a technology innovator in the PostScript® field since 1987 when the first Harlequin RIP was created, and through its Jaws® interpreter which was first released in 1991. Through its Jaws PDF technology, Global Graphics Software has been developing and refining PDF creation tools from the inception of the PDF format in 1993. Today we continue to develop and implement the latest features and solutions around the open format PDF Specification.

Jaws PDF Editor SDK Include PDF viewing and manipulation support in your application

Features

View and navigate	Single and continuous page modes Navigate using bookmarks, thumbnails, and links Zoom	General	Print and print preview View and save 40-bit and 128-bit encrypted files Select and copy text by line or paragraph Find words or phrases Save linearized PDF for web viewing Support for CID fonts
Bookmarks	Add new bookmarks Edit and change destination Change position and level Delete	Forms	Support for opening, editing, saving and printing forms Import and Export PDF-based PDF form data
Comments and markup	Note, highlight, strikeout and underline Edit comment text Change comment properties	Web browser integration	Use PDF Editor within Internet Explorer (6.x or higher)
Thumbnails	Generate, view and navigate	Language support	Localization in Chinese, Dutch, English, French, German, Italian, Japanese, Korean, Spanish
Document assembly	Insert pages Move and reorder pages Extract pages Rotate pages Delete pages Change open	Availability	Jaws PDF Editor SDK is available through authorized resellers or direct from Global Graphics Software.

Supported platforms for SDK development environment

- Windows Server 2008 (x32)
- Windows Vista Business Edition SP1 (x32)
- Windows Vista Enterprise Edition SP1 (x32)
- Windows Vista Ultimate Edition SP1 (x32)
- Windows XP Professional SP3 (x32)
- Windows XP Professional SP2 (x64)
- Windows 2003 Server SP2 (x32)
- Windows 2000 Professional SP4
- Windows 2000 Server SP4

Development environment support

- Visual C++ v6
- C#
- Visual Basic (v6 and .NET)
- Visual Studio .NET 2003
- Visual Studio .net 2005
- Delphi (v7 and later)
- C++ Builder (v5 and later)

Supported platforms for running applications built with SDK

- Windows 98 SE
- Windows Me
- Windows Server 2008 (x32 and x64)
- Windows XP SP3 (x32)
- Windows 2000 SP4 (Server/Professional/Advanced)
- Windows XP SP2 (Home/Professional)
- Windows XP SP2 Professional (x64)
- Windows 2003 Server SP2 (x32 and x64)
- Windows Vista SP1 (x64)
- Windows Vista Business Edition (x32)
- Windows Vista Enterprise Edition (x32)
- Windows Vista Ultimate Edition (x32)
- Citrix MetaFrame Presentation Server 3.0 running on:
Windows 2000 Server SP4 (including Windows 2000 Advanced Server SP4)
or
Windows 2003 Server (including Windows 2003 Server Enterprise)
